Press Release - For Immediate Release

The Belgium Area Chamber of Commerce and Village of Belgium to Host a Connect Communities Kickoff Meeting

Belgium, Wisconsin has been accepted as one of eight communities accepted into the 2018 Connect Communities program by the Wisconsin Economic Development Corporation.

According to the WEDC, the Connect Communities program helps local leaders leverage the unique assets of their downtowns and commercial districts, providing access to resources and networking opportunities to local leaders interested in starting a district revitalization effort.

The Chamber and Village would like to invite all downtown business owners and residents interested in revitalizing Belgium to a Connect Communities Kickoff Meeting at Village Hall on Tuesday, March 13th, 2018, at 5:00 PM.

Representatives from the Wisconsin Economic Development Corporation (WEDC) will be present to discuss the offerings of the Connect Communities program as well as share revitalization resources and strategies. "This will be a great opportunity for individuals with a stake in Belgium to come together and work with the Belgium Connect Communities group and WEDC to promote revitalization in Belgium," says Annie Noster, Chamber President. The meeting will consist of a presentation by the WEDC and a group strategic planning session.
